

i could see if i could donate items other than money that the shelter could use (food, toys, s etc)

I wish you could take home a pet for 24-48 hours as a trial

I wish there was a mentor or someone I could speak to directly for help with my dog

I wish you were able to donate though Venmo

I wish that for each step in the adoption process I got a list of necessary to-dos

i wish "pet personality" profiles were more in-depth and detailed

I wish I could see a detailed health profile of my pet before adopting (apple watch style vitals)

I wish there was a page on the website to directly buy/ donate toys, food, and other things the need
